

Corporate Quality Policy Statement

BYME Engineering (HK) Ltd. is committed to Quality and to satisfy the clients through our initiatives, experience, capabilities, expertise and resources applied to our Building Services and Facility Management activities in sustainable way. In line with its "Vision and Company Policy Statement", this commitment is to ensure that Quality is at the heart of our actions.

To achieve and maintain this objective, BYME Engineering (Hong Kong) Limited's commitments are to:

- 1) Implement and maintain Quality Management System in compliance with ISO9001:2015 standards and provide permanent monitoring of the system through regular audits, reviews and inspections to ensure the delivery of a continuous improvement cycle,
- 2) Ensure every effort is made to meet Clients' / relevant interested parties' needs and expectations for achieving their satisfaction in delivering our products and services,
- 3) Comply with the statutory, regulatory and contractual requirements,
- 4) Understand cause and effect relationships and potential unintended consequences with ongoing focus on improvement to achieve an effective Quality Management System,
- 5) Ensure the establishment, planning and regular review of measurable Quality Objectives. These objectives are set as part of our annual Management Review Meeting,
- 6) Identify and manage potential risks and opportunities proactively and implement actions to mitigate them,
- 7) Optimize and regulate our activities taking on innovative solutions and in parallel implementing Lean Management solutions, Modular Integrated Construction (MIC) and Design for Manufacture and Assembly (DfMA),
- 8) Provide necessary resources to maintain the effectiveness of Quality Management System, and
- 9) Ensure sustainable business development focusing on profitability, recurrence and balance between intra-group and extra-group activities, in both Hong Kong and Macau.

This Policy is to be clearly communicated, understood and implemented at all levels within the company and our project sites, including our sub-contractors, external providers and the interested parties. It will regularly be reviewed for its effectiveness, through Steering Committee and Management Review Meetings.

The measure of success of the Quality Management System is its recognition by all BYME Engineering (HK) Ltd. staff and their engagement and compliance with the Quality Management System requirements throughout all stages from design, supply, installation, testing & commissioning, maintenance and facility management.
